Vlaic Bogdan: USAMV Cluj, Cluj-Napoca (Romania).

Publisher: Bioflux (Bioflux SRL)

Adress: 54 Ceahlau Street, Cluj-Napoca 400488, Romania, EU.

Rabbit Genetics is a peer-reviewed journal. Each published article was independently seen before by two scientific reviewers and at least one linguist. Peer-review policy: we use double blind peer-review.

The journal covers all the sub-fields and related fields of rabbit genetics (structure, function, evolution, ecology, taxonomy) and genetic issues of rabbit husbandry (including technology and biotechnology). Exceptionally, the journal will accept also papers of rabbit physiology, mainly on biochemistry and metabolism.

Rabbit Genetics is a good opportunity for you to publish your original research, review, opinion, or short communication, both printed and online, color, open access. The journal will be disseminated on a very large scale.

Zoological Record (part of Biosis)

ION contains the organism names related data gathered from the scientific literature for Thomson Reuters' *Zoological Record*[®] database. Viruses, bacteria and plant names will be added from other Thomson Reuters databases such as *BIOSIS Previews*[®] and *Biological Abstracts*[®]

Ulrich's™ is the most comprehensive knowledgebase of print and electronic serials data available and features in-depth coverage for more than 300,000 serials from 90,000 publishers covering 950 subject areas and 200 languages. This unmatched resource powers the Ulrich's™ Global Serials Intelligence services. For more than 75 years, librarians and researchers have trusted Ulrich's™ as the authoritative serials resource for unbiased information about journals, magazines, newspapers, and other periodicals around the world. The Ulrich's dedicated data managers perform ongoing research and publisher outreach to ensure the most current, multi-faceted view of the scope, availability, and quality of serials resources.

Contents

Petrescu-Mag I. V., 2021 In memoriam Miklos Botha: You will remain among us through your achievements. *Rabbit Gen* 11(1):1-1.

Gradinaru A. C., 2021 A review on As (Est-2) autosomal locus in the rabbit and the heritable condition of different pharmacological response to atropine. *Rabbit Gen* 11(1):2-9.

Gradinaru A. C., 2021 Different drug-processing enzymes with atropine- and cocaine esterase activities reported in rabbits and humans. *Rabbit Gen* 11(1):10-15.

Papuc T., Petrescu-Mag I. V., 2021 The A locus in domestic rabbit breeds (*Oryctolagus cuniculus*). *Rabbit Gen* 11(1):16-21.

Petrescu-Mag I. V., 2021 Apply ethics where justified - The case of the Papillon rabbit breeds. *Rabbit Gen* 11(1):22-24.
